HOW TO HUSTLE AND WIN

A Survival Guide for the Ghetto (Part One)

BY SUPREME UNDERSTANDING

What could the stories of Frank Lucas, Akon, Marcus Garvey, Jay-Z, Nat Turner, and Michael Vick possibly have in common?

Simple - they can all teach us something. Whether good or bad, the many stories of the Black experience in America provide a rich source of life lessons for today. Now, there's a book that captures all this complexity and transforms it into practical advice, delivered in simple language.

In doing so, *How to Hustle and Win* reaches urban audiences and the Hip Hop Generation like no other book has done before.

Combining biting satire, insightful social commentary, an in-depth understanding of urban life, and years of research, *How to Hustle and Win* engages readers hoping to "hustle" their way into a better life, and then leads them down a road to self-discovery, personal transformation, and social and economic empowerment.

This book is a diverse mix of historical biography, fictional narrative, humor, social commentary, and "how-to" advice and instructions. Its unique approach has attracted a significant following. Readers and supporters have responded almost unanimously with praise and acclaim for the book's style and presentation, as well as the depth and diversity of its subject matter.

How to Hustle and Win's ability to empower and transform readers has resulted in thousands of book sales throughout the United States, Canada, and the United Kingdom. The book has also been adopted by several prison education programs and non-profit organizations serving at-risk youth and juvenile offenders.

Author Bio

Supreme Understanding is a community activist, award-winning educator, and expert on the socio-economic and psychological struggles of oppressed people. A former juvenile delinquent, Supreme earned his doctorate in education at 26, focusing his research on the benefits of non-formal education with at-risk students and disadvantaged populations. *How to Hustle and Win* represents one of the methods of delivery for that curriculum.
