

RAP, RACE AND REVOLUTION

SOLUTIONS FOR OUR STRUGGLE

By Supreme Understanding

Poverty without end. Open-air drug markets. A school-to-prison pipeline. A culture without conscience? Beyond the clichés and rhetoric...what are our solutions?

The American Dream hasn't worked out so well for all its citizens. Among the urban poor, hopelessness is a fact of life. But it doesn't have to be.

Supreme Understanding returns with another handbook for attaining success in spite of all odds. The first installment in the series, *How to Hustle and Win: A Survival Guide for the Ghetto*, explored personal development and self-empowerment.

Rap, Race and Revolution: Solutions for Our Struggle expands on that ethic by equipping its readers with the tools to change their world for the better.

Rap, Race and Revolution adheres to Supreme's tested formula of straight talk and practical solutions. The author seamlessly weaves tales of urban oppression and survival with anecdotal

humor; juxtaposed with a searing wit and brutal honesty.

The result has earned accolades from every cross-section of the American public. High school teachers and rap artists alike are moved by Supreme's words and ideas. For those who say teenagers won't read, Supreme's books are the answer.

With Supreme Understanding's capacity for making sense out of an increasingly senseless world, **Rap, Race and Revolution** is far from a litany of problems without solutions. Rather, it is a textbook for anyone pursuing personal freedom and social transformation.

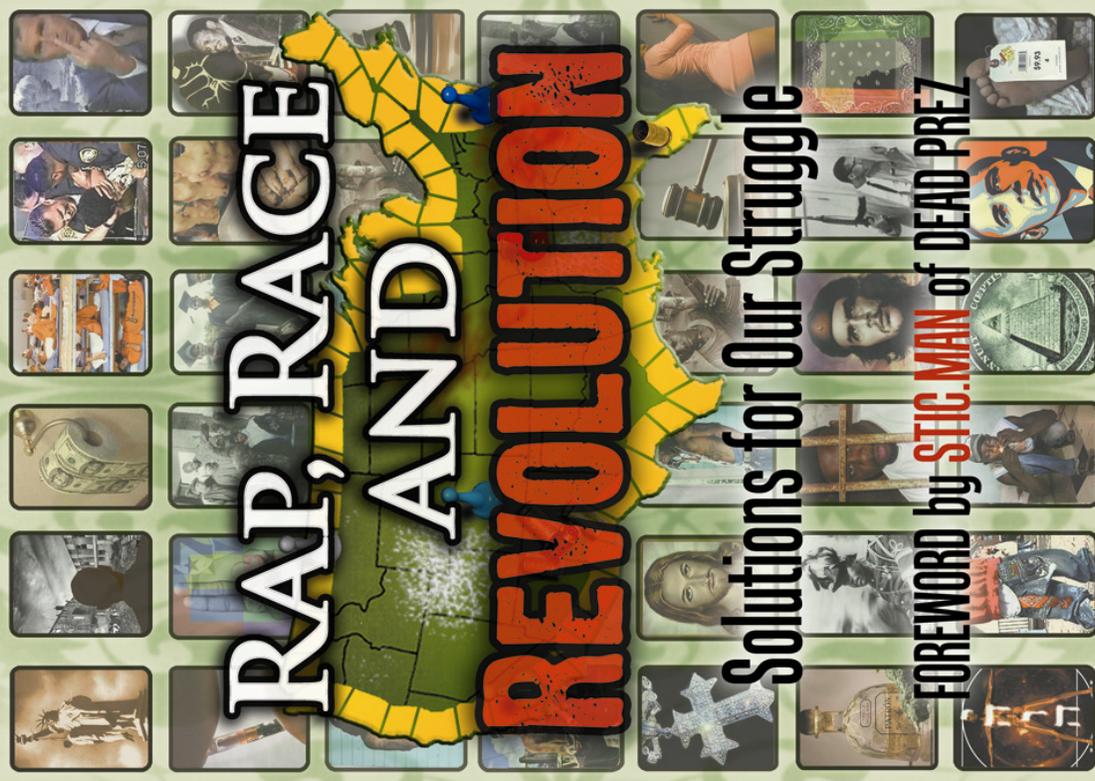

"A blueprint for self-determination and survival in an ever-changing and precarious world." – Bruce George, co-founder of HBO's Def Poetry Jam

Author Bio

Supreme Understanding is a community activist, award-winning educator, and expert on the socio-economic and psychological struggles of oppressed people. A former juvenile delinquent, Supreme earned his doctorate in education at 26, focusing his research on the benefits of non-formal education with at-risk students and disadvantaged populations. *Rap, Race and Revolution* represents one of the methods of delivery for that curriculum.

YOU CAN'T WIN THIS GAME... YOU HAVE TO CHANGE IT.
